

PRESS RELEASE

Ghostly highlights that don't only come out at night STABILO BOSS MINI MONSTERS

Have you seen the mini monsters at work yet? No? Then look out. A whole gang of scary monsters are now on the prowl, armed with fluorescent ink to strike fear into drab notebooks. Featuring five fun printed designs, the limited edition "STABILO BOSS MINI MONSTER" highlighters are guaranteed to cause a riot whenever they appear. However, there's no need to panic. These ghosts just want to play and appear wherever there's fun to be had. They also work professionally and the fluorescent traces they leave behind clearly point to proven STABILO quality workmanship, ink and writing comfort. And they get down to work with 5 fluorescent colours, 2 line widths and water-based ink that's suitable for use on paper, copy and fax, as well as a long cap-off time.

In a word: mini monsters – maximum illumination
